PROJECTS

Consistency Tracker App

An app which tracks your consistency throughout the week. I used Flutter framework for app development and fl_charts package for creating customizable charts.

MyDictionary App

An everyday usable app for finding meaning of words in seconds!

Personal Portfolio Website

I used basic HTML5 and CSS3 with a bit of Bootstrap5 to build this website.

Library Management System

We used Python with MongoDB as backend and build this system for gaining knowledge of Database Management System architecture and also learned Python basics.

ACHIEVEMENTS

- Runner Up of **The Error Hunt** conducted by IEEE VIIT Student Branch

- Winner of **7 Days of Code** coding challenge conducted by Computer Scoiety of India (CSI) VIIT Student Chapter.
